Digital Literacy Awareness Quiz
This quiz checks your knowledge about safe internet use and digital awareness
Name *
Short answer text
Email *
Short answer text
What is the primary purpose of Two-Factor Authentication (2FA)?
It makes your internet connection faster.
It provides an extra layer of security by requiring a second form of ID.
It allows two people to share the same password safely.
It automatically backs up your photos to the cloud.

When evaluating if an online article is "fake news" or reliable, what is the most important step?
Checking if the headline is exciting or uses all capital letters.
Seeing how many "likes" or "shares" the post has.
Verifying the source, the author's credentials, and looking for supporting evidence.
Assuming it is true if it was shared by a close friend.
Which of the following is the most secure way to manage unique passwords for all your online accounts?
Using the same password for everything so you don't forget.
Writing them down in a notebook kept next to your computer.
Using a reputable digital password manager.
Using your name followed by "123".
You receive an "urgent" email from your bank asking you to click a link and "verify your account

Using your name followed by "123".
You receive an "urgent" email from your bank asking you to click a link and "verify your account details" immediately or your account will be closed. What is this an example of?
Digital footprint
Phishing
Software update
Spam filtering
What does your "Digital Footprint" represent?
The physical size of your laptop or smartphone.
The amount of data storage left on your hard drive.
The trail of data you leave behind when using the internet.
The number of steps you take while carrying a mobile device.
