NAME: Ravi Prakash Rai

REG NO: 25BAI11199

BRANCH: B.tech CSE(AIML)

SCHOOL:SCAI

SUBJECT: DIGITAL LITERACY

SUB Teacher: Prof. KANNAN

Topic: Digital Literacy Awareness Infographic

PROJECT REPORT

I used platforms like Google Forms and Canva to build and practice my digital skills. On Google Forms, I created a Digital Literacy Awareness Quiz that included multiple choice and short answer questions. This helped me understand how to design surveys, set correct answers, and organize questions clearly. On Canva, I worked on a presentation about digital literacy basics, where I learned how to present information in a clean, visual, and engaging way using templates, icons, and proper layouts.

While working on these tools, I practiced structuring content in a simple and understandable manner, especially for beginners. I also improved my ability to think about user experience, like making questions easy to read and slides visually appealing.

These tools will help me academically in many ways. Google Forms can be used for quizzes, feedback collection, and research surveys, which are useful for projects and assignments.

Canva will help me create professional presentations for classwork and seminars. Overall, these platforms improve my creativity, organization, and digital communication skills, which are very important for my academic growth.
